D. New Data Elements/Requirements

The additional data requirements/data elements for BOSY 2016-2017 in the data gathering forms has been consulted and deliberated with the different divisions involved to come up with a holistic and comprehensive data gathering tool which is vital in the collection of data from the schools and field offices to efficiently render delivery of data/information to various stakeholders and for policy formulations.

Data elements related to the Comprehensive Water, Sanitation and Hygiene in Schools (WinS) Program (DO 10, s.2016) will help

strengthen the promotion of correct hygiene and sanitation practices among school children and a clean environment in and around schools to keep learners safe and healthy. Per DO 10, s. 2016 the following data elements and purpose were provided:

Data Elements	Purpose	Table/Box Name
Water Supply	To make safe drinking water available to all students.	Availability of Water Supply
Sanitation	To make all schools have adequate, clean, functional and accessible toilet facilities.	Toilet to Pupil Ratio
Hygiene	To perform supervised daily group handwashing with soap and tooth brushing with fluoride toothpaste.	Existing Number of Wash Facilities Operation and Maintenance
Food Preparation and handling	To require school heads to ensure that food handling and preparation abide by the food safety manual in all schools	Food handling
Menstrual Hygiene	To create system and support mechanism for an effective menstrual hygiene management	Menstrual Hygiene

Travel distance, means, cost and time will be useful to determine the remoteness from the division office and municipal services. It can also assess school congestion and catchment areas and by doing so can be used as input to the school improvement plan.

The Data on Repeaters Age Profile will be collected to account the number of repeaters by age.

To recognize the help and contributions extended by our stakeholders (in terms of ideas, manpower/man-hours, equipment and facilities, and financial contribution in cash or in kind) to key school processes and projects, these data will be collected to come up with an indicator for immediate outcome in the DepEd planning framework.

And lastly, the data on MOOE Allocation, Utilization and Liquidation will be collected for the purpose of monitoring the MOOE and total expenditure.

As a summary, the following tables and boxes are additional/revised data sets to be included:
