

MESSAGE

Education eradicates ignorance, alleviates poverty and improves lives. It empowers a person to work hard and to live with dignity. It supports nation-building. Education creates a myriad of opportunities for growth.

This month, a million kindergarten pupils, elementary, high school and college students graduate from their respective levels/schools. A milestone for students and their parents.

Let us therefore give tribute to the dear parents for their encouragement, endless support, prayers and to the teachers for their determination, patience and dedication.

The Provincial Government of Misamis Oriental is one with the nation in congratulating you on the occasion of your graduation!

As Dr. Jose P. Rizal once wrote and I may echo, Hail to the fair youth of the motherland!

ORIGINAL SIGNED
YEVGENY VINCENTE B. EMANO
Provincial Governor
