Subject: Submission of Text2Teach School Performance Indicator SY 2014-2015
(Baseline)

As part of the agreement, for one academic school year, the Text2Teach (T2T) alliance is closely monitoring each Text2Teach connected school to get the impact and scale. Monitoring and evaluation is a key component of Phase 4. In fact, the Microsoft Data Gathering (MDG) software, which enables AFI to design, send, receive, and analyze surveys sent to the Text2Teach-recipient schools' mobile phones, will be used to gather data on the usage and effects of Text2Teach, for monitoring and evaluation purposes. It is seen as the most efficient and cost-effective way of monitoring the usage and impact of Text2Teach in schools.

In preparation for the monitoring of our schools in Misamis Oriental, T2T schools are required to submit their baseline information. The following indicators are needed:

1. NAT results
2. Grade 5 average grades in Math, Science, English & Values
3. Grade 6 average grades in Math, Science, English & Values
4. Absenteeism Rate
5. Drop-out Rate
6. Promotion Rate

Form is available for download (School Performance Indicator 2015) from the MDG server to the provided Nokia Lumia 630 Windows phone or you may click the following link to the survey website:
