DATE: April 23, 2015

1. This office recognizes the vital role of health as an important factor to the total growth and development of a child.
2. As an effect of rationalization and retirement of some health personnel some districts/ schools are left without assigned health personnel to monitor the health and the implementation of the health programs in their school.
3. In the exigency of service and in our desire to give health care delivery to all public school pupils and students, the health personnel are advised to visit their assigned extension schools in addition to the station school.
4. Enclosed is the list of health personnel and their extension school.
5. For information, guidance and compliance
