

The Philippine Professional Standards for Teachers

Gina O. Gonong
Director, Research Center for Teacher Quality

**“The quality of an
education system cannot
exceed the quality of its
teachers.”**

(McKinsey, 2007)

Internationally, Teacher Quality is articulated in Professional Standards for Teachers

Professional Standards:

- Is a **public statement** of professional accountability
- Makes explicit what teachers should **know, be able to do and value in the profession**
- Is sufficiently **generic** to represent practice across Grade levels and subject areas

For many years, DepEd has used **National Competency-based Teacher Standards (NCBTS)** as a framework for teacher quality

- Training and Development System (DO 30, s. 2009)
- Teacher Strengths and Needs Assessment Tool, Individual Plan for Professional Development, Teacher Induction Program, Instructional Supervision, Professional Development of Teachers (DO 32, s. 2009; DO 23, s. 2010)
- Teacher Education and Development Program – Deployment of Pre-service Teachers (DO 3, s. 2007)

In 2013, RA 10533 (K to 12 Reform) was signed into law

This prompted the following:

- Need to **revisit NCBTS** as a Framework for Teacher Quality; and, address teacher quality requirements in the K to 12 (e.g., content knowledge and pedagogy, career stages)
- Work on teacher standards was **approved** in 2012 by the **Joint Advisory Board** chaired by Former Sec Armin Luistro

The development of the **new Professional Standards for Teachers**

A three-year, robust **quantitative and qualitative** research and development work was undertaken that included, among others:

- **Wide consultation** with key education stakeholders and thousands of in- and pre- service teachers, principals, supervisors, and teacher educators across the country
- **Review and analyses** of teacher standards across 42 international jurisdictions, as well as Philippine government and media discourse on teacher quality
- **National validation** approved by Br. Armin in Feb 2015
- **Finalization** by TEC, Regional Directors, Bureau Directors in August 2016

Survey of in-service and pre-service teachers, as well as teacher educators)

PERCEPTION OF QUALITY PERFORMANCE INDICATORS

THE SURVEY

The passage of the K to 12 Law (RA 10533) in June 2013 as a response to the changes and challenges of the modern world has changed the landscape of teacher quality requirements in the Philippines. The current reform calls for teachers' reflection of their roles and expectations of them in the context of K to 12 Education.

The survey is designed for you to reflect on the difficulty level of different performance indicators that relate to your professional work. This Likert-scale survey consists of 78 items for you to respond from the 5-point Likert Scale. The survey is organized from most teacher quality requirements compared with the Philippine K to 12 Reform, as well as the congruence of international teacher quality indicators.

Your responses to the survey is to capture your perspectives to help inform teacher quality initiatives in the country from a teacher perspective.

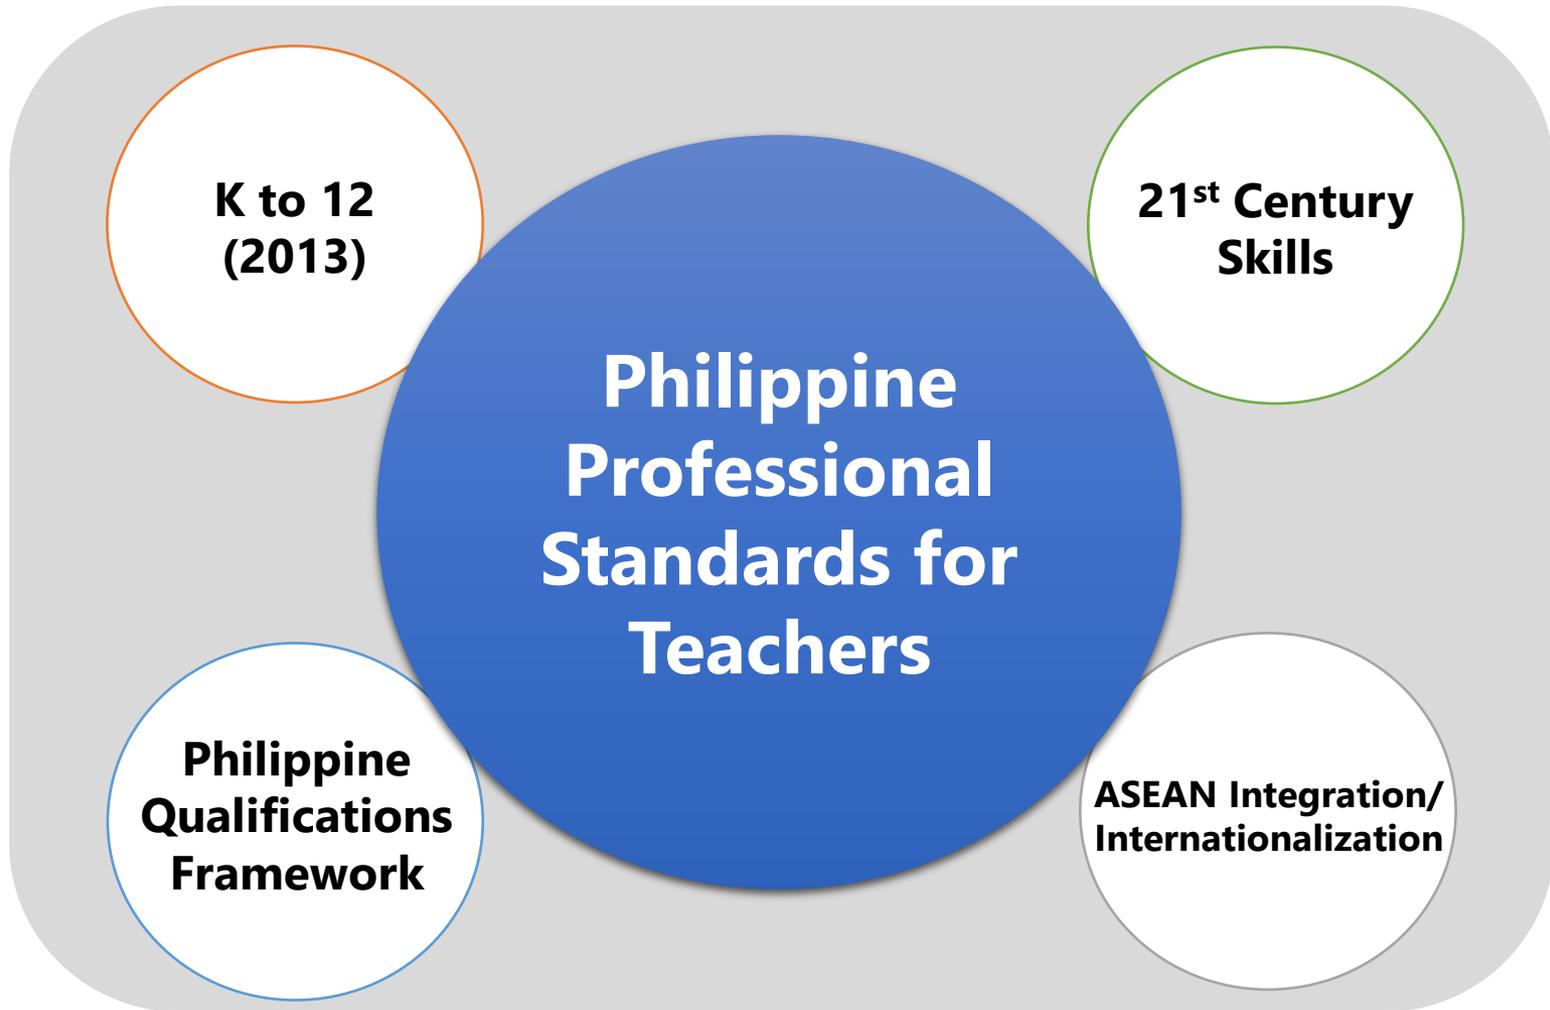

Item	Very Difficult	Difficult	Neutral	Easy	Very Easy
1. Instructional resources to	0	0	0	0	0
2. Management of time and task delegation to	0	0	0	0	0

Capturing teacher quality

Philippine Professional Standards for Teachers
as the **New** Framework for
Teacher Quality and Teacher Development

Professional Standards as a **Framework** for Teacher Quality and Teacher Professional Development

Four **Career Stages** (developmental, lifelong learning)

Seven **Domains** (“distinctive spheres of the teaching-learning process”)

(37) **Strands** (“more specific dimensions of positive teacher practices”)

(37) **Indicators** per Career Stage (concrete, observable, measure teacher practices)

Note: Pls refer to the copy.

Domains

NCBTS

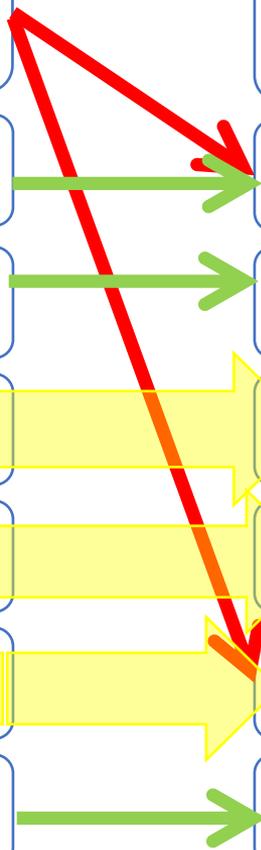

Philippine Professional Standards for teachers

Subsumed in other domains

- 1 Social Regard for Learning
- 2 Learning Environment
- 3 Diversity of Learners
- 4 Curriculum and Planning
- 5 Planning, Assessing and Reporting
- 6 Community Linkages
- 7 Personal Growth and Professional Development

- 1 Content Knowledge and Pedagogy
- 2 Learning Environment
- 3 Diversity of Learners
- 4 Curriculum and Planning
- 5 Assessment and Reporting
- 6 Community Linkages and Professional Engagement
- 7 Personal Growth and Professional Development

Central to the new K to 12 Reform and places, at the beginning, the importance of teachers knowing their content and knowing how to teach it.

Social Regard for Learning

NCBTS

Strand 1.1. Teacher's actions demonstrate value for learning

1.1.1. Implements school policies and procedures

1.1.2. Demonstrates punctuality

1.1.3. Maintains appropriate appearance

1.1.4. Is careful about the effect of one's behavior on students

Strand 1.2. Demonstrates that learning is of different kinds and from different sources

1.2.1. Makes use of various learning experiences and resources

Professional Standards for Teachers

Strand 6.4 School policies and procedures

6.4.2 Comply with and implement school policies and procedures consistently to foster harmonious relationships with learners, parents, and other stakeholders.

Strand 6.3 Professional ethics

6.3.2 Review regularly personal teaching practice using existing laws and regulations that apply to the teaching profession and the responsibilities specified in the Code of Ethics for Professional Teachers.

Strand 2.3 Management of classroom structure and activities

2.3.2 Manage classroom structure to engage learners, individually or in groups, in meaningful exploration, discovery and hands-on activities within a range of physical learning environments.

The Paradigm Shift

Before K to 12

NCBTS

Paradigm Shift

K to 12

The Professional Standards

(a continuum of teaching practice defined in terms of distinct career stages)

Rationale for Career Stages

The description of standards at different career stages provides “a **framework for the teacher development continuum.**” (OECD,2005)

Teacher evaluation should be **based on professional teaching standards** and should be sophisticated enough to assess **teaching quality across the continuum of development** from novice to expert teacher.
(Darling-Hammond in Strauss, 2012)

Teacher Professional Growth

Teacher professional growth can be represented by:

It is valuable to have **sign posts** along the way to help identify progress.

Teacher quality Stages are **developmental** in nature and exist on a **quality continuum**.

This is about teachers, not leadership roles such as Principals and Supervisors.

Four Career Stages

The first (Beginning) concerns people who complete their training from TEIs

The second (Proficient) concerns an acceptable standard for all teachers. It should be a standard reached within the first few years of teaching

The third (Highly Proficient) concerns accomplished practitioners who mentor and work collegially with other staff

The fourth (Distinguished) concerns exemplary teachers who have developed skills to lead colleagues in promoting quality learning

Career Stage Description

Career Stage 1: Beginning

- possess the requisite knowledge and skills vital to the teaching and learning process
- seek professional support from more experienced colleagues

Career Stage 2: Proficient Teachers

- professionally independent in the application of skills vital to the teaching and learning process
- display skills in planning, implementing and managing learning programs

Career Stage 3: Highly Proficient Teachers

- consistently display a high level of performance in their teaching practice
- provide support and mentoring to colleagues in their professional development

Career Stage 4: Distinguished Teachers

- embody the highest standard for teaching grounded in global best practice
- recognized as educators, leaders, contributors to the profession

Beginning

Proficient

Highly Proficient

Targeted Professional Development for Teachers

Domain 3. Diversity of Learners

Strand 3.1 Learners' gender, needs, strengths, interests and experiences

Stage 1

Stage 2

Stage 3

Stage 4

3.1.1

Demonstrate knowledge and understanding of differentiated teaching to suit the learners' gender, needs, strengths, interests and experiences.

3.1.2 Use differentiated, developmentally-appropriate learning experiences to address learners' gender, needs, strengths, interests and experiences

3.1.3. Work with colleagues to share differentiated, developmentally-appropriate opportunities to address learners' differences in gender, needs, strengths, interests and experiences.

3.1.4 Lead colleagues to evaluate differentiated strategies to enrich teaching practices that address learner differences in gender, needs, strengths, interests and experiences

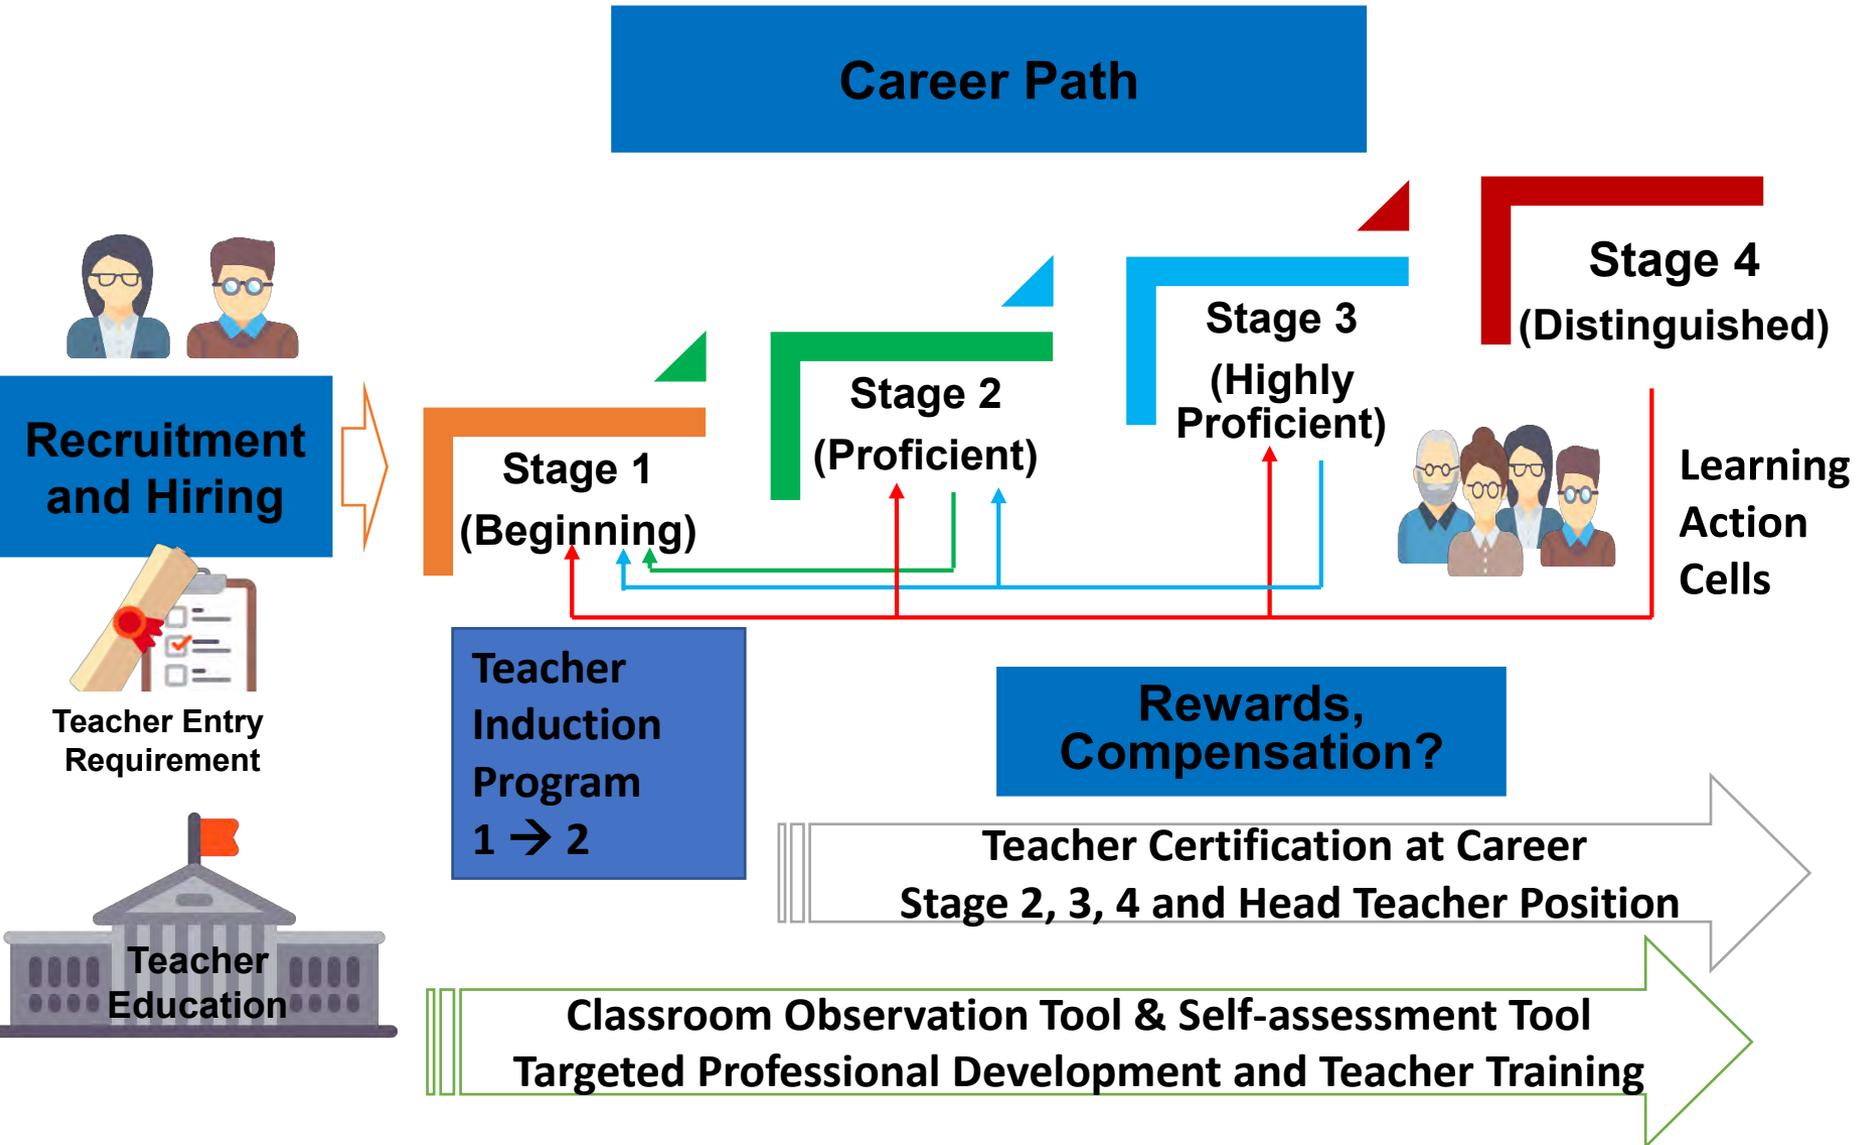

Learning Action Cells

Features of a Developmental Approach

(AITSL, Looking at classroom practice, p.6)

- Gives **clarification** to what it means to “get better” in areas of teacher expertise
- Defines **direction**: describes and illustrates professional growth and development for teachers
- Enables teachers to **reflect on their practice, diagnose strengths and areas needing improvement**
- Provides **vision and details of the next level of performance** based on teacher quality
- Is sensitive to the **continuum of lifelong learning** of teachers’ professional practice

Philippine National Center for Teacher Quality
RESEARCH CENTER FOR TEACHER QUALITY

RESULTS-BASED PERFORMANCE MANAGEMENT SYSTEM (RPMS) For Teachers

SELF-ASSESSMENT TOOL For Teacher I (0-3 years in service)

The passage of the K to 12 Law (R.A. 10533) in June 2013 as a response to the changes and challenges of the modern world has changed the landscape of teacher quality requirements in the Philippines. The current reform calls for teachers' reflection of their roles and expectations of them in the context of K to 12 Education.

This form is designed for you to reflect on the different objectives that relate to your professional work. This consists of 18 items for you to respond according to level of capability and level of priority for development. The items meet teacher quality requirements congruent with the Philippine K to 12 Reform, as well as the convergence of international teacher standards.

PLEASE READ THE INSTRUCTIONS

This form has two parts: Part I: Demographic Profile and Part II: Objectives.

For Part I: Demographic Profile, please shade the circle of the demographic information applicable to you.

For Part II: Objectives, please shade the circle that corresponds to how you rate the objectives based on (1) level of capability and (2) level of priority for development. At the bottom of each page, there is a checklist to write about any concerns that you feel are relevant to the objectives on that page.

Classroom Observation Tools

Teachers teach because of the learners.

They should have qualities that support learners to stay in school.

Source: Albert, JR. (2016). *What do statistics say about basic education in the Philippines*. Philippine Institute for Development Studies

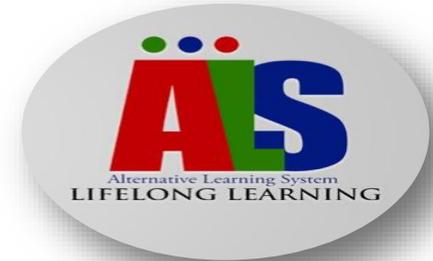

Why Are Many Filipino Kids Not In School?

...there remains more than a million school-age Filipino children who are not in school.”

All, most especially ALS Teachers, should respond to Learner Diversity and see learners in their social context

Strand 3.4.2 Plan and deliver teaching strategies that are responsive to the special educational needs of **learners in difficult circumstances**, including: geographic isolation; chronic illness; displacement due to armed conflict, urban resettlement or disasters; child abuse and child labor practices.

Strand 3.5.2 Adapt and use culturally appropriate teaching strategies to address the needs of **leaners from indigenous groups**

Marginalized learners

- street children
- indigenous peoples
- farmers
- fisherfolks
- women
- adolescents
- solo parents
- children in conflict areas not reached by the formal school system
- rebel returnees and others.

As articulated in the Philippine Professional Standards, teachers must, among others:

- Develop learners to become **critical thinkers**
- Recognize, respect and celebrate **individual differences**
- Know **what** to teach and **how** to teach it
- Respond to the different **needs of learners**; see learners in their **social contexts**
- Plan and design **effective** teaching and learning processes
- Establish **community** relationships and uphold **professional ethics**
- Engage in professional **reflection**

Use of **Mother Tongue**, Filipino and English in instruction

Knowledge of **research**

Strategies for promoting **literacy and numeracy**

Strategies for developing **critical and creative thinking skills**

Classroom **communication strategies**

Know what to teach and how to teach it

Maintain a learning-focused environment

Learners' **linguistic**, cultural, socio-economic and **religious backgrounds**

Engage in professional reflection and assume responsibility for personal professional learning

Teacher Quality as articulated in the Professional Standards

Learners in **difficult circumstances**

Are responsive to learner diversity

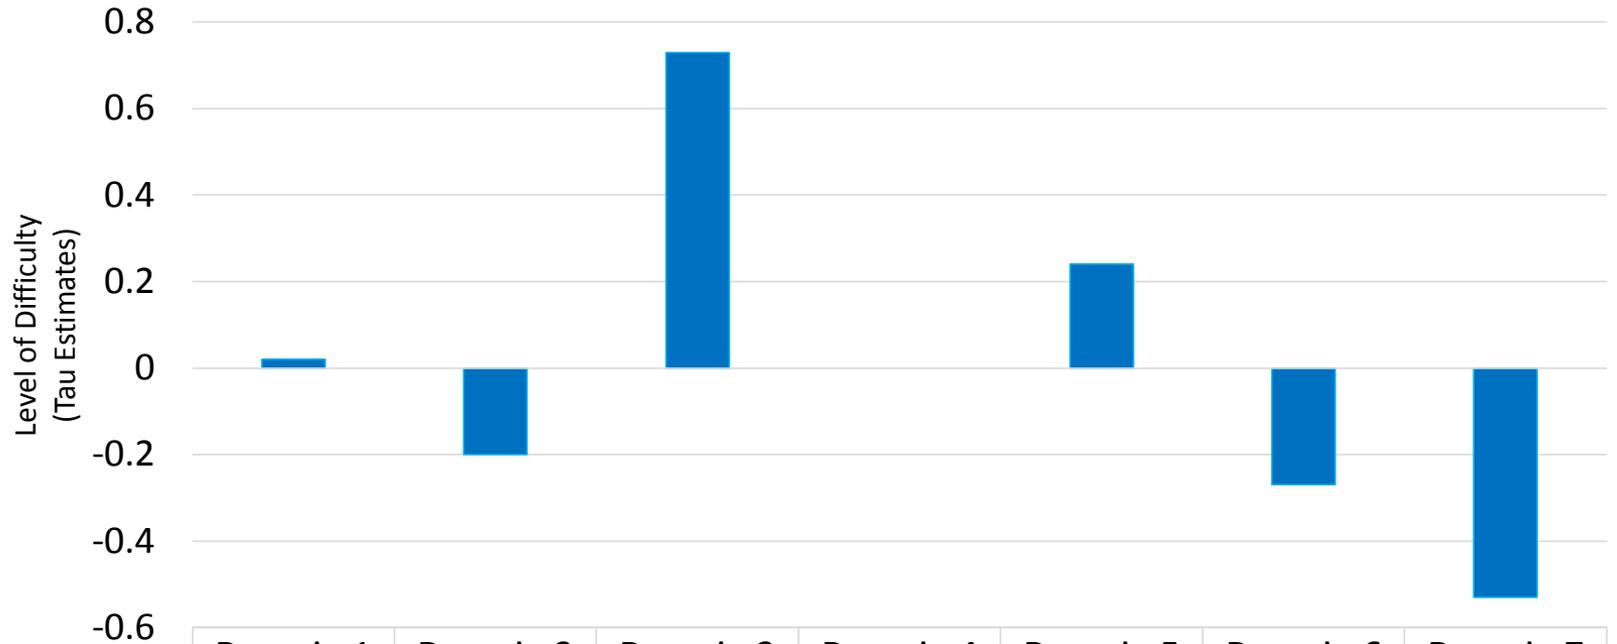

Learners from **Indigenous Groups**

Establish community relationships and uphold professional ethics

Use a variety of assessment tools to inform and enhance the teaching and learning process

Plan and design effective instruction

Final National Validation: Questions on Implementation

The commentary across Surveys and the Focus Group Workshops was extremely positive. However, the profession has questions about implementation.

- How do we integrate the Professional Standards with existing national processes?
- What support structures and resources are needed to ensure efficient implementation?
 - How will teachers be supported to become aware of and to understand the Standards?
 - Will School Heads be trained too? How can the practice of “favoritism” among School Heads be mitigated? Will they have their own ‘new’ Professional Standards?
 - How can the involvement of politicians be mitigated in the process of hiring and promoting teachers?

- Will there be a clear timeline of implementation?
- How will the teacher's career stage be identified? How will teachers move to the next career stage?
- What if after three years, a teacher remains to be a beginning teacher in practice? Will she stay as a teacher?
- What if Master Teachers are not really highly proficient based on the indicators of Career Stage 3? What if a Teacher 2 or 3 is better than a MT?
- If a teacher moves to the next career stage, will there be an incentive or increase in salary?
- Will teachers be assessed on all indicators? What if a school, for example, has no learners from indigenous groups? Or no resources to teach Mother Tongue? Or no computers to use as a learning resource?

Implementation Ideas?

Of course I talk to
my self.

Sometimes
I need
expert
advice.

Ideas can be
life-changing.
Sometimes all
you need
to open the door
is just one more
good idea.

--Jim Rohn

Thank you very much. 😊
